**Peterson Begins
Parking Crackdown,
Backs Hatch Scheme**

BY OTTO TALLENT

What started out as a ripple caused by a parking problem around the courthouse in the heart of Redwood City, reached tidal wave proportions Wednesday with:

1. County Executive Frederick Peterson agreeing with Supervisor Alvin S. Hatch (a historical feat in itself) that serious consideration be given to moving all county offices to a site where it would be possible to centralize all buildings and

2. An edict issued by Peterson that only county-owned cars and cars with cards signed by him would be permitted to park in the 32-car parking lot in back of the courthouse.

"Now is the logical time for such a move if it is to be made," Peterson declared, in regard to Supervisor Hatch's suggestion that the courthouse be moved away from Redwood City, "before our postwar building program gets under way. At the same time such a move would relieve Redwood City's parking problem."

Peterson stressed that he was not proposing that the courthouse be moved but that consideration be given.

Meantime, tempers flared among employees Wednesday morning when they attempted to park in the courthouse parking lot which some of them had done since the lot was constructed some six years ago, and found two sheriff's deputies awaiting to inform them they could not park on the lot.

Peterson said deputies would be at the entrances for the next few mornings to keep out cars other than those which have been designated to use the lot.

More than 400 county employees and officials use courthouse facilities each day.

One county employee suggested that employees drive into the "for-bidden zone" and let officers place tickets on their cars, then take the matter to court for a showdown.

One employee charged that the plan which took effect Wednesday to allow certain persons to use the parking lot and forbid others to use it "reeks of imperialism."

"First come, first served," was the motto of another.

The trouble started after the Redwood City City Council issued an order that county officials and employees and others who frequent the courthouse must adhere to the two-hour parking rule on the Middlefield Rd., Marshall and Hamilton St. sides of the courthouse and one-hour rule on Broadway.

One of the supervisors, according to an unofficial drive into the "for-bidden zone" and let officers place tickets on their cars, then take the matter to court for a showdown.

Mayor J. F. Furlong of Belmont Tuesday followed up on Hatch's proposal with the announcement that his city has available a large site which he believes meets all the specifications of Hatch's plan. Furlong favors a location between the Southern Pacific railroad tracks and Bayshore Hwy. on Ralston Ave., just north of the old dog track.

Allotment of cars to the courthouse parking lot: County executive, 1; county clerk, 3; purchasing agent, 1; assessor, 2; superintendent of schools, 2; health department, 2; social service, 2; building inspector, 3; district attorney, 3; planning commission, 1; treasurer, 1; controller, 2; Superior Court Dept. 1, 1; Superior Court Dept. 2, 1; justice court, 1; engineer, 2; recorder, 2; veterans' service officer, 1; traffic safety, 1; State Board of Equalization, 1; civil service, 1.

Peterson said the department heads could make allotments in their own departments as they see fit.

**S.C. Train Victim
Recovering**

Nine-year-old Ernie Benton is resting quietly in Community Hospital where his condition is reported "good," after being struck by a train Monday afternoon as he rode his bike over the Brittan Ave. crossing in San Carlos.

The impact of the train hurled the boy's body 24 feet and dashed him into a signal upright eight feet above the ground. He sustained deep cuts on his legs and face and a fractured arm as he hit the uprights.

His parents, Mr. and Mrs. James Benton of the Bayshore Trailer Grove, San Carlos, said Tuesday while a southbound train went by, then, he told them, the signal stopped and he started across the tracks and rode into a train traveling in the opposite direction.

**Pillar Point
Breakwater
Study Begins**

U. S. Army Engineers working out of the district office in San Francisco this week began sounding Half Moon Bay as part of their study on the proposed Pillar Point breakwater.

Results of the breakwater survey, which began in March, are due in the office of the chief engineer in Washington, D. C., on Nov. 1.

Two crews, consisting of from eight to 10 men, are undertaking the sounding with the co-operation of Coastside fishermen, engineers in charge reported Tuesday.

Although the U. S. Coast and Geodetic Survey has previously surveyed the harbor, the present study will give the first detailed information regarding the bay and its submarine formation.

Survey crews, using regular army engineer equipment in addition to that augmented by fishermen, are expected to complete the soundings in two weeks, weather permitting. The survey, authorized in January, will be studied in Washington by engineers who will determine feasibility of constructing a breakwater.

Construction of a breakwater, proponents claim, will provide an adequate purse seine port between San Francisco and Monterey Bay, will provide industrial sites and otherwise enhance Coastside properties, and will retard soil erosion there.

**County Schools
Get State Aid**

The public schools of San Mateo County got \$1,558,313 in apportionments from the state treasury for the 1945-46 school year, California Taxpayers' Assn. said Wednesday, making public the second section of its study of school district financing in California. In addition to the state apportionment, the property tax levy for the school districts in the county was \$2,674,734 for 1945-46.

Elementary school districts in the county got \$1,043,567 out of the state treasury, high school districts received \$463,878, and junior college districts \$50,868.

**John McGlasson Heads
Typographical Union**

John McGlasson, 410 Birch St., was elected president of Local 624, International Typographical Union (AFL), at a meeting Monday night in the San Mateo Labor Temple. McGlasson replaces Clarence E. Strain, 2315 Isabelle Ave., San Mateo, who resigned to go into business for himself.

HALT TWO S.C. FIRES

The San Carlos Fire Dept. extinguished two fires Monday, the first at 10:05 a.m. on Beverly Dr., and the other at 3:25 p.m. on the Bayshore Highway north of the Trailer Grove.

**Firemen Save
Woman's Life**

Redwood City firemen saved the life of Mrs. Alice Wilson Monday. Mrs. Clyde Plants, 526 Hudson St., where the incident occurred, said Mrs. Wilson had been suffering from a bad heart and was not breathing at the time firemen arrived at 10:36 p.m. to administer inhalator treatment. By 12:10 a.m. Mrs. Wilson was declared out of danger.

Firemen also answered three other calls Monday. At 12:50 p.m. they were called to a grass fire at C and Arguello Sts. At 1:27 p.m. they were called to 416 Warren St. where they extinguished a gasoline flare-up from a wall paper removing machine.

**James Resigns Post
As Atherton Engineer**

The retirement of James S. James as Atherton city engineer and the naming of Edwin H. Smith to replace him were announced by the Atherton Town Council Monday night, and the budget of \$34,883 for the coming year was adopted.

James, who has served as city engineer for many years is retiring so that he can devote more time to his personal business interests, according to Howard Boren, city clerk. His successor also serves as city engineer for Menlo Park. James is a former San Mateo County supervisor and county engineer.

**Civil Service
Tests Scheduled**

Russell J. Cooney, county civil service personnel director and secretary, Tuesday announced civil service examinations for a group of 10 jobs to be held the first two weeks in September.

In September, examinations will be given for administrative assistant I and II; Sept. 5—agricultural field operator and agricultural inspector; Sept. 7—assistant building inspector and assistant veterans' service officer; Sept. 10—administrative assistant III; Sept. 12—ambulance driver-attendant; captain, ambulance service; Sept. 14—book-keeping machine operator.

**P.A. Pipe Company
Asks Investigation**

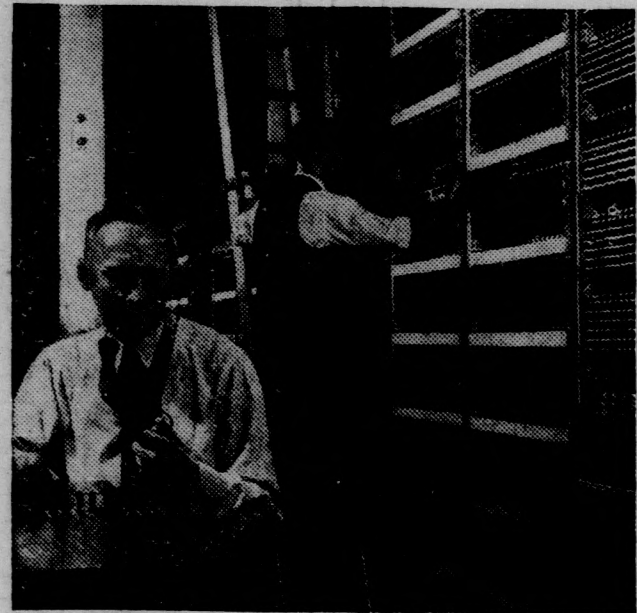

Robert W. Bercu, vice president of the Briarwood Corp., Palo Alto, smoking pipe manufacturers, answered charges of unfair labor practices made to the National Labor Relations Board by the International Longshoremen and Warehousemen's Union Local 6 (CIO). Bercu, who said a NLRB investigation would be welcomed in that it would clear up a "misunderstanding," denied an allegation that the company had discriminated against a Redwood City veteran employed at the plant.

The Redwood City man, whom the union charges was fired because of union activities, left the company voluntarily and without explanation, Bercu said.

He said more than 100 persons employed at the plant were non-union, but that they had their own employees organization. The union charged the company with dominating an independent union.

**You'll dial calls all the
way across the country**

Some day, you will be able to complete a call to New York—or anywhere else in the country—almost as swiftly as a local call. For you will dial the number you want, and your call will be automatically routed across the country. Preliminary work on a nation-wide dialing system is already under way.

Uncannily accurate, switching equipment like this will do the job. Each section of the country will have a special three-digit code which you will simply dial before you dial the number you want. Between some neighboring cities here on the Coast long distance dialing will be a fact within the next few years.

This is only one of many long distance and local telephone projects included in our five-year four hundred million dollar expansion program. For it is our purpose to expand and improve service in every way we can... to make the telephone more useful and valuable to everyone.

An ever-improving telephone service at the least cost consistent with good wages and working conditions for our employees and a reasonable return to the thousands of people who have invested in the business.

The Pacific Telephone and Telegraph Co.

JACK LOVE

MIKE LOSKUTOFF

2 Held in Car Theft, Girls Claim Kidnap

Two men, both described as "known" by the San Francisco Police Dept. were returned by the San Mateo County sheriff's office to the custody of San Francisco police Monday formally charged with car theft.

Meantime, charges of kidnaping and of illegal possession of a weapon are being investigated following an accusation by two San Francisco sisters that the men forced them into the car at gunpoint Saturday night and drove them to a lonely road on the Coast-side where sailors in a passing car "rescued" them.

Removed from the county jail Monday and turned over to the San Francisco police were Jack Love, 29, and Mike Loskutoff, 24, both of San Francisco. They are charged with having stolen from a Golden Gate Ave. parking lot a car belonging to Anne M. Andrews of 2162 20th Ave., San Francisco.

The charges of kidnaping were leveled at the men by two sisters, Mrs. Carmen Evans, 23, an employee of the Matson Navigation Co., and Dorothy Lee Roper, 21, a key punch operator at the Zellerbach Paper Co. Both girls gave their address as 444 Clur Ave., Daly City.

The girls told police that they had been walking along San Francisco's Mission St. Saturday night when they were stopped and forced at gunpoint to get into a nearby car. When the car stalled in wet sand on a road near San Gregorio, the girls told officers the men forced them to flag down passing motorists.

Two Moffett Field sailors, bound for a fishing trip, stopped to help the party, but when one of them, George Canady, found a pistol, he told police he became suspicious, and he and his companion, Alfred H. Courtney, then stopped another motorist.

The latter motorist notified Robert Ballard of Pescadero, who in turn called sheriff's Deputy James A. Beatty of San Gregorio.

Beatty took Love and Loskutoff to the county jail early Sunday morning after hearing the girls' story.

There Love told officers that he and Loskutoff had stolen the car on Mission St. but that the girls had "picked up" the two men and had voluntarily entered the vehicle. Love, who is a self-admitted member of the Mission District white gang, added that he knew all about the recent Balboa High School arsenal burglary but denied that he had participated in it.

Loskutoff, who was free on \$5000 bail for stealing a car several weeks ago, told officers that Love had told him he had borrowed the car for the night. As for the gun, a .45-caliber Colt automatic marked "U.S. Property," Loskutoff said it belonged to one of the sailors. He corroborated Love's story that the girls had entered the car voluntarily.

San Carlos Boy Hit by Train

Nine-year-old Ernie Benton was seriously injured Monday afternoon when he rode his bicycle in front of a northbound train at 12:50 o'clock at the Brittan Ave. crossing in San Carlos.

The county ambulance rushed the boy to Community Hospital where he was said to be in "fair" condition with a fractured arm, and deep cuts on his face and legs.

At 2 p.m. police officers had just succeeded in reaching his mother, Mrs. Hilda Benton, at her job in a San Francisco OPA office. The injured boy's family lives in the Bayshore Trailer Court in San Carlos.

World-wide Food Shortage Causes Truman Appeal for Home Food Gardens Again

Because of the world-wide food scarcity, President Truman has called on Victory gardeners to continue in 1946 the home production of vegetables which added so much to the national food supply during the war.

The President's appeal will take many gardeners by surprise, and cause them to change their plans, if they had expected to convert their vegetable plots to flowers this spring. It is recognized that only a serious emergency would have caused the appeal.

Reports of reduced commercial production and higher costs have been widely current, and predictions of a curtailed pack of canned goods have been made. The President's appeal asks for both production and preserving of food by amateurs, just as during the war, in order to increase the country's total supply. Forty per cent of this total in war years was credited to Victory gardens.

Immediate steps to inaugurate a government campaign to back up the President's appeal were taken by Secretary Anderson, who named Paul C. Stark of Missouri director of the National Garden Program and head of a committee to plan the department of agriculture's participation in the campaign.

Mr. Stark will also maintain liaison with other agencies involved, both governmental and private. The program will be carried forward in the various localities by working through the State Extension Services and other established agencies.

Commenting on the plans for this year, the President said:

"During the war period, gardening further demonstrated its value to our people in many ways. The splendid response to the appeal for more home-produced food was an important factor in making it possible during the war for the people of this country to be better fed than before the war while supplying the best-fed fighting forces in the world and providing essential food supplies to our allies. The threat of starvation in many parts of the world and the urgent need for food from this country emphasize the importance of continued effort to add to our total food supply this year."

A continuing program of gardening will be of great benefit to our people. In addition to the contribution gardens make to better nutrition, their value in providing outdoor physical exercise, recreation and relaxation from the strain of modern life is widely recognized. The Department of Agriculture through a long-time garden program can do much to encourage more attractive home surroundings and improved community development, and can provide a large body of citizens with much needed assistance in home gardening."

Flowers for Cutting Adorn Both the Garden and Home

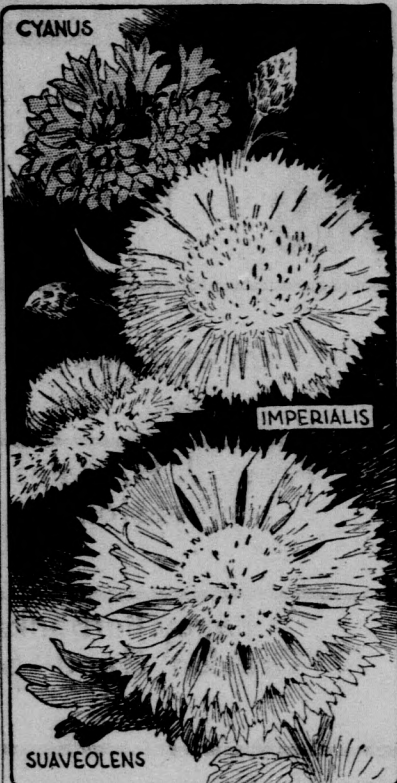

Annuals grown for cut flowers serve a dual purpose. They add a great show of color to the outdoor garden and may also be utilized to excellent advantage for indoor decoration.

Not all annual flowers lend themselves to this use. Good flowers should have a capacity for long life after being cut; the stems should not be too short or it may be difficult to display them in an adequate vase; their odor, if any, must be pleasant, since an obnoxious odor can not be tolerated in a cut flower. Then, too, the plant should be a heavy producer.

The godetia, also known as "farewell to spring," deservedly is one of the most popular of all cut flowers. The plants grow rapidly, requiring little care or attention to speed them into an early bloom. The average garden loam should suffice for this plant. The favored variety is Duke of York, which has primrose-like flowers, the crimson petals being set off by a white center. The plants grow to a height of approximately two feet and will tolerate a certain amount of shade.

Asters have much to offer as cut flowers, since a wide range of colors may be obtained. Some of the flowers are single and quite small, while others such as the California Giants measure from five to six inches across and are carried on stems frequently attaining a height of two feet. Asters require an open exposure, a rich soil and plenty of moisture coupled with excellent drainage.

One of the easiest annuals to grow is the cornflower or Bachelor's Button. These flowers thrive on neglect and practically any type of garden soil will suit their demands. Although the double blue Bachelor's Button is the best known member of this tribe there are nevertheless other colors such as red, pink, purple and white which will be found useful for indoor decoration.

The Cornflower (Centaurea) and Its Cousins.

The Bachelor's Button requires plenty of sunshine and the flowers should be picked almost as soon as they are out of the bud stage. Do not let them go to seed for the seed producing procedure saps a great deal of the plant's energy.

Other varieties of ornamentals that are recommended for the cut flower garden include: calendulas, cosmos, gaillardias, scabiosa, phlox, marigolds and zinnias for planting during the warmer months of the year.

E.P.A. Motel Fire Brings Arson Charge

Ired because a companion would not let him into a room at an East Palo Alto motel early Tuesday morning, Lawrence P. Taylor, 21, set fire to a door at the place, Chief Dep. Sheriff Walter H. Moore, reported.

Taylor, who is in the county jail here on a charge of arson, told sheriff's deputies and members of the Menlo Park Fire Dist. that he had left the Reginald Motel, 1320 Bayshore Hwy. East Palo Alto, where he and Harold Sanders, 32, Redwood City construction contractor, had been staying for a "couple of nights," and that when he returned at about 3 a.m. Sanders did not come to the door to let him in.

Taylor admitted, Moore said, that he became enraged and took an ironing board and rags he had found in a garage and set fire to them at the motel door.

Special Patrolman John Lemon passed by on patrol while the fire was burning and took the ironing board away from the building. Damage was limited to the burning of a door frame.

Meantime, Asst. Fire Warden Ernest Wender reported that an investigation is being made to determine origin of four grass fires Monday and one Saturday in Friendly Acres which he claims were definitely set.

Three of the fires were in the same field, at Second Ave. and Spring St. One was at 5 p.m. Saturday, one at 8 a.m. Monday and one at 6:30 p.m. Monday. A fire was set at the Chinchilla Farm at 6:15 p.m. Monday next to a hedge, and the owner reported he had put out a fire himself at the same place the day before.

There was another fire at the same time, 6:15 p.m. Monday.

Sharp Park Man Too Sharp Twice

It apparently did not faze Edward D. Anhorn, 38, of San Francisco, who lists himself as a sheetmetal worker, when Sheriff James J. McGrath's deputies raided the Town Hall Pool Room at Sharp Park which he operates and confiscated two slot machines on July 24.

Deputies Don Hartnett and Jack Hosford went to Sharp Park late Tuesday afternoon armed with a warrant for the arrest of Anhorn on the July 24 charge and found two brand new slot machines in the place.

Chief Dep. Sheriff Walter H. Moore said a new complaint will be filed against Anhorn charging him with the second offense. Maximum sentence on each count in case of conviction would be \$500 fine or six months in jail, or both.

Anhorn, who was jailed at 7:10 o'clock Tuesday night, was freed Wednesday on \$100 bail on each count.

All four slot machines confiscated are at the jail here. The two taken Tuesday were one-armed bandits. In the first raid, one of the machines confiscated was a one-armed bandit and the other of console type.

Meanwhile, sheriff's deputies still are trying to determine if machines played in bars "for pleasure" actually pay off.

The Times-Gazette, Friday, Aug. 2, 1946

Page 3

POW Need Not Pay Service Claim

Former military prisoners of the Japanese need not pay private agencies for servicing claims arising out of their treatment in prison camps, E. W. (Ned) Butler warned this week.

Speaking for the Better Business Bureau, Butler said anyone who believes he has such a claim may address a letter to the Department of State, attention of the Legal Advisor, Washington, D. C., requesting information to enable him to file proper claims. There is no charge for this service.

The bureau has learned, he said, that certain agencies are soliciting former prisoners in an effort to obtain a down payment and are asking claimants to agree to pay them a percentage of any amount finally received.

S.F. Woman Hurt In Bayshore Crash

One person was injured Sunday afternoon near the northern San Mateo County line when a car driven by Joaquin I. Torres, 42-year-old San Francisco laborer, smashed into two automobiles which were idling on Bayshore Hwy. at Geneva Ave. waiting for a third car to complete a left-hand turn.

Treated at Mission Emergency Hospital was Katherine Barnes, 31, of San Francisco, who was a passenger in one of the damaged cars driven by Samuel L. Barber, 35, also of San Francisco. Armando Galaga, 34, of San Francisco, who was the driver of the other car involved, was not hurt.

Police held Torres for drunk driving and operating a car without a license.

Union Votes S&W Contract, Settles Strike Differences

The brief "outlaw" strike which threatened to tie up the S&W Fine Foods Inc. plant in Redwood City last week was officially settled Wednesday at a meeting of Candy & Glace Fruit Workers Union, Local 158 (AFL), Tuesday union members accepted a recently simplified contract which they had claimed was signed over their heads.

Although T. S. Rhorabaugh, plant general manager, had not yet been informed of the union's action late that morning, union spokesmen said the contract had been accepted on the recommendations of a workers' committee which negotiated "clarifications" in the contract last week. The contract is on a two-year basis, but will be open for changes next April.

Carol Drake describes complete-meal salads

Make summertime salad-time by including whole meal salads on your menu frequently during the week. If you make the salads substantial enough by adding hard cooked egg, seafood, cold chicken or meat or cheese, as well as garden fresh vegetables, then all you'll need to complete the menu is a dessert.

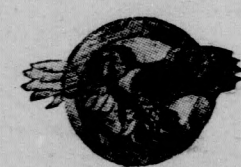

SUPER SUPPER SALAD—Combine 1 cup flaked seafood, chopped leftover chicken or meat with 1 cup cooked peas, 1 cup sliced, cooked carrots, 1 large sliced cucumber, sliced radishes and green onion (tops and all) to taste, and 2 or 3 sliced, hard-cooked eggs. Season with 1/2 tsp. salt and 1/2 tsp. sugar. Toss in salad dressing seasoned with a bit of mustard. Serve on lettuce or cabbage leaves. Garnish with tomato wedges. Serves 6 plentifully.

KIDNEY BEAN AND VEGETABLE SALAD—Drain and chill 1 medium-size can of kidney or baked beans. Combine 1 cup shredded cabbage, 2 or 3 tomatoes cut in wedges, 2 or 3 chopped green onions, tops and all, 1 cucumber finely diced. Season with salt and pepper. Add beans and toss in a tart dressing. Serve in lettuce cups or on shredded mixed greens. Serves 6.

YOUR FAVORITE VEGETABLE SALADS can become whole meal salads by making them in generous amounts and adding cold, chopped meats, canned seafood, and the like. Or you can make them tasty and robust by adding strips of luncheon meats or pre-cooked chopped frankfurters. Add a bit of left over rice or cooked macaroni or chop a boiled potato into a mixed vegetable salad.

HAVE YOU EVER TRIED shredding raw new turnips or beets in a salad? Raw cauliflower is delectable too, sliced paper-thin or shredded.

Carol Drake, Director The Homemakers' Bureau An Extra Safeway Service

12,421 Returned VETERANS had been employed by SAFEWAY STORES to June 1, 1946.

It takes top quality fresh fruits and vegetables to make perfect salads. The lettuce must be crisp and tender; tomatoes must be ripe, yet firm and full flavored; every ingredient must be at its peak of goodness if the salad is to be exactly right. Yes, salad making is just about the most severe test you can make of fresh produce. That's why we invite you to try Safeway fruits and vegetables in salads. We're so certain you'll find them grand, we promise your money back if they ever fail to please you!

MEAT—POULTRY BUTTER and EGGS

Meat, poultry, butter, eggs, and other dairy products are the principal items in our stores which continue without price control but subject to possible reconrol after August 21st. We believe Congress made a wise decision in providing for a continued free market for these commodities. From our knowledge and experience with meat and dairy products, we believe that consumers and producers alike will be benefited in the long run if meat and dairy products are not reconrolled. A free market is the only way to assure a continuation of adequate non-black market supplies at non-black market prices.

Granger to Present 'Answer' to Parking Problem Next Monday

BY BUD SPRINGER

Floyd D. Granger announced Tuesday he had an answer to the San Mateo County Courthouse automobile parking dilemma. And the Redwood City city councilman probably better have. He's right in the middle — right between fellow councilmen on one hand and county officials to whom he owes his job on the other.

It all started this way. The city council decided there would be no special privilege. It ruled that city policemen would take vehicles operated by county officials just like anyone else's if their vehicles were over-parked around the courthouse. The police did just that.

They tagged supervisors. They tagged County Executive Frederick Peterson this week. They also tagged County Assessor Martin J. Flynn, Dr. Charles C. Gans, department of health and welfare director and Adrian Ward, social welfare department superintendent.

Needless to say, county officials were upset. For a long time they have enjoyed their privilege and they would like to continue to enjoy it. Supervisor Alvin S. Hatch of Half Moon Bay, who was tagged a while back, proposed that the courthouse be moved to an undesignated spot near Belmont. Assessor Flynn said the vehicle tagged was a county vehicle and the county could pay the tag. Dr. Gans paid the tag but claimed the vehicle was a station-wagon ambulance and that it was parked on department reserved space.

A reporter who covers the courthouse beat for a San Francisco newspaper who received two tickets in one day last week, went to see City Mgr. E. W. Blom and Police Lt. S. D. Wood. Blom told him that the city would continue to tag over-parked cars around the courthouse — or anywhere else where they over-parked. He said county officials evidently expected to be allowed to park their cars 25 feet from their desks. He also said that Redwood City is getting too large for such practices and that he believed it would do the officials good to walk from unrestricted parking zones to their jobs.

Woods said he wasn't putting his neck out — he was just doing his job. So there stands Granger, the county veterans' service officer, provisionally. His job is to advise veterans on their problems. Right now Granger is not under civil service. He will have to take an examination for his post and then be appointed. Not only that, but if appointed, Granger would probably like to enjoy cordial relations with other county officials. He probably

wouldn't like them saying nasty little things about him behind his back because they have to park their cars away from the courthouse.

S.C. Cleaners Hit By Strike Request

Delegates to the San Mateo Central Labor Council (AFL) Monday night turned over to their executive board for hearings a request from Cleaners and Dyers Local 7 for strike and boycott sanction against the San Carlos Cleaners, San Carlos.

According to Carl Cohenour, secretary, the executive board will conduct hearings to determine whether the local shall have council support against the firm. Completed organization of Redwood City Cleaners, Redwood City, and the expected signing today of a new contract, was reported by Local No. 7 to the council. A copy of the Western Federation of Butchers' letter to the Peninsula meat dealers was read to the delegates for information. No action was taken on the letter. The council also received a letter of appreciation from Laundry Workers Local 143 for aid in organizing the Redwood City Laundry and notification that the laundry should be removed from the council's "do not patronize" list. A contract was signed July 12.

Barbers' Autos Get Clipped

Two barbers had "close shaves" late Sunday night when the cars they were driving collided on Bayshore Highway and 19th Ave., San Mateo.

Paul Eddington, 56, a San Francisco barber, was making a turn from Bayshore onto 19th Ave., California Highway Patrol officers said.

Joseph De Benedetto, 68, a San Jose barber, was south-bound. The tenuous traffic tie-up was caused when both drivers apparently tried to beat the other to the intersection, officers reported.

Cut Flowers Keep Longer When Properly Harvested

The life of cut flowers may be lengthened considerably by care in removing them from the parent plants. The best time for cutting is during the early morning hours. That's when the plant stems are extremely turgid and evaporation attains its lowest point. At that time of the day the flowers have already stored up in their cells a great amount of moisture; and this helps to prolong their life after they have been removed.

The implement used for the cutting should be extremely sharp. Don't use a pair of scissors that has dulled its usefulness. The result will be a ragged edge on the stem, a condition that may shorten the life of the cut flower. Inasmuch as the moisture is absorbed through the stem end it should be obvious that a ragged section will interfere with the speedy movement of moisture upwards through the stem to the flower head. It is best to cut slantwise, rather than straight across.

As soon as possible after cutting plunge the flowers into a deep container filled with water. The flowers should be allowed to rest and absorb as much moisture as possible before arranging them in a vase. It is advisable to leave them in this tub of water for at least several hours before transferring them to the decorative container.

It is possible to maintain the water in a clean and healthy state by adding a small amount of charcoal. The water should be changed every day if time allows, certainly at least two or three times per week.

Foliage falling into the water soon decays, thus forming a scum on the surface.

The leaves of the cut flowers will react favorably to being washed off from time to time. It is wise to keep the foliage free from dust as any accumulation of dirt particles may stop up the breathing pores on the surface of the foliage. As the flowers start to wither and fade they should be removed; in this way they will not spoil the appearance of the other flowers that still enjoy health and good looks.

Check Business Bureau On Magazine Ads

Merchants who are requested to purchase advertising space in magazines were warned this week to consult the Better Business Bureau by E. W. (Ned) Butler, chamber of commerce secretary-manager.

Butler said that in the past some magazines for which ads were solicited proved to be phoney deals and that merchants were victimized. The bureau, he said, could quickly tell merchants whether the magazine in question was a legitimate one.

Four R.C. Fires Over Weekend

Redwood City firemen answered two alarms Saturday and two more Sunday.

Sunday at 12:25 p.m. they were called to 1304 El Camino Real where a refrigeration unit had broken down, flooding a room with gas. At 5:30 p.m. they extinguished a grass fire at 710 Redwood Ave.

Saturday at 1:41 p.m. they extinguished a fence fire at 2720 Jefferson Ave., and at 2:51 p.m. they extinguished a grass fire on Bayshore Highway near the S. H. Frank & Co., Inc., tannery.

Dick Bygdnes Tops Soapbox Derby Event

Redwood City's 1946 Soapbox Derby king, the winner of the Tribune Trophy, is 15-year-old Richard Bygdnes, who three times proved himself a champion Sunday by copping the title, winning the award for the best designed car, and prize for winning his heat in 24.4 seconds, the fastest clocked time of the afternoon.

Racing before a crowd of 500 persons who lined the course on Katherine St. Sunday afternoon, Bygdnes conclusively earned the right to head the local delegation of the 12 fastest racers which will go to San Francisco Aug. 3 for the regional finals.

Young Richard's car, a streamlined cream and blue bullet, bearing the name of his sponsor, the Roy Bissell Tire & Battery Service on its side, staged a family repeated performance of the 1941 race in which his older brother Alan took first place in the B division.

Fred Sanders Jr., 15, racing a low-slung blue job for the McNeill Furniture Co., took second honors in 25 flat, followed by Wallace Hall, 16, in 25.5, driving a silver speeder for the Exchange Club. Hall also won a prize for taking his best heat.

Race track thrills were provided by Eugene Douthitt and James Riley, on the First National Bank and Haul Bros., respectively, who lost control of their racers and careened off the course into the crowd.

Ray Spangler of the Tribune handled announcing duties, with Gen. Chmn. Al Davies of the Davies Auto Co. managing the events at the Nevada St. starting incline. Andrew Spinas of the Kiwanis Club was the starter. These three organizations sponsored the local event.

Next objective of the local champions is the San Francisco race, which will decide the winners to be sent to Akron, O., for the international finals Aug. 18.

The winners at Akron will receive numerous valuable awards including a \$2000 college scholarship, while winners at San Francisco will also be awarded trophies and merchandise. The top boy of the Redwood City team will receive an award in San Francisco even if he fails to place.

The 12 boys who will go to San Francisco selected by their times are as follows: Richard Bygdnes, Fred Sanders, Wallace Hall, Billy Brown, Jack Simpkins, Harold Hjelm, Dale Bannister, George Hilk, Bob Wilson, Carl Necklason, Allen Plant and David Verner.

Winners of the seven heats Sunday were Stanley Raen, Bruce Schott, George Hilk, Bob Wilson, Carl Necklason, Wallace Hall and Richard Bygdnes.

Mules became popular for general household wear after the reign of Queen Elizabeth.

"RIVERSIDES... didn't come on my car; I Chose Them!"

"And I see a lot of the club-members are switching to Riversides!" Yes, more and more car-owners are buying Riversides... in preference to tires that came on their cars, in preference to all other make tires! It's happened more than 40 million times! That couldn't happen so often without a mighty good reason!

RAYON-CORD CONSTRUCTION... 6.50-16 and larger size Riversides are built of rayon cord—smaller sizes of finest cotton! Every Riverside is built much stronger than pre-war!

MONTGOMERY WARD

WARDS WAR-PROVED*

Vitalized OIL

CLEANSES as it LUBRICATES

IT'S 10 WAYS BETTER:

- Cleanses as it lubricates
- Disperses engine sludge
- Increases gas mileage
- Stands 35° to 50° higher temperatures
- Reduces carbon, lacquer
- Prevents rust and corrosion
- Protects moving parts
- Keeps oil rings cleaner
- Keeps all lines cleaner
- Lengthens engine life!

In your container **16¢** Plus Federal Tax

Fill up your crankcase with Wards Vitalized Motor Oil... it cleanses as it lubricates! That means better performance, fewer motor repairs!

*Vitalized Oil is similar to the Motor Oil used by ALL Army trucks & tanks in World War II!
